

Silos

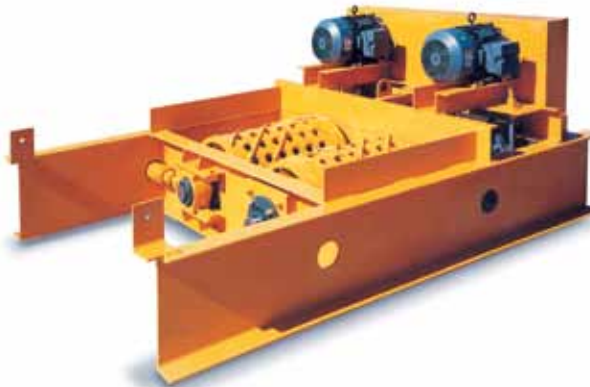

MAXAM provides affordable silos to meet the growing demands of today's contractors. Our hot mix silos have special features that can save you valuable time and money down the road.

- 100, 200 and 300 ton
- 1 to 6 bin configuration
- Dual clam gates
- Fully insulated
- Electric or oil heat optional
- Optional Seismic Zone IV

Drag Slat Conveyors

- 200 to 800 tons per hour capacity
- Dual or single chain
- 3,000,000 ton chrome carbide wear plate
- 1,000,000 and 2,000,000 ton chain
- Dual stairways standard
- Electric or oil heat optional

Rap Breaker

Pulverize millings and previously crushed material! MAXAM's advanced roll design lets you shatter football size pieces and eliminates the need for rebuilding or replacing teeth.

Cold Feed Systems

MAXAM cold feed bins are designed for optimum performance in a rugged Asphalt Plant environment. The oversized steel structure is designed to handle the abuse common to most plant operations.
