

ASPHALT PLANT

Maxam Alert-Plus

the "WATCHMAN"

MONITOR • ALERT • REMOTE EQUIPMENT RESTART

Maxam Alert-Plus goes beyond other alarm systems with the ability to automatically, or manually, restart plant equipment, so you can avoid unnecessary trips to the plant in off hours.

**MONITOR
ALERT
RESTART**

- Monitor plant conditions, from anywhere, by phone
- Send alerts to cell phones or land line numbers
- Remote equipment start with optional relay
- Compact size for wall mounting anywhere in the control house
- Internal battery backup
- Pre-programmed to monitor A/C temperature and burner operation
- Space for 2 additional functions included (such as fire and burglar alarm)
- No electrician needed – 'foolproof' set up
